Malang, Jawa Timur, Indonesia 65216 | Fullstack Web Developer & Digital Creator

I'm a passionate Fullstack Developer with a strong focus on Vue.js and Express.js, dedicated to building efficient, scalable, and user-friendly web applications. Through hands-on experience from personal projects and internships, I've developed the ability to craft robust solutions, build responsive interfaces, and integrate powerful APIs to support real-world functionality.

Work Experiences

PT AMERTA ASA MEDIA - **Pasuruan, Indonesia**   Jul 2024 - Dec 2024

Internship

PT. Amerta Asa Media is a company engaged in the field of internet service provider, prioritizing user comfort in using the internet.

- Developed a fullstack web application for technician coordination and documentation of completed work, using Express.js (backend) and Vue.js (frontend). The system helps track progress, assign tasks, and collect visual evidence from the field.
- Designed various digital assets including posters, brochures, banners, and promotional materials, tailored for both online and print media, helping increase brand visibility and engagement.

Education Level

State Vocational High School 1 Purwosari ✓ - **Pasuruan, Indonesia**   Jul 2022 - May 2025

High School Diploma in Software Engineer, 92.33/100.00

- Completed a fullstack web app project (UKK) showcasing frontend-backend integration and real-world deployment readiness.
- Built a real-world system during industrial internship (Prakerin), applying team workflow and production-level coding standards.
- Interned at PT. Amerta Asa Media, gaining hands-on experience in development, collaboration, and meeting real client requirements.
- Participated in the national-level Uji Kompetensi Keahlian, focusing on building fullstack systems using modern tech stacks.
- Created school event content (posters, flyers, digital banners) to support extracurricular and academic communication.
- Mentored classmates in group coding sessions, improving collective understanding and collaboration on development challenges.

Organization Experience

Student Council for Information and Communication Technology   Sep 2022 - Sep 2024

Member

Intra-school organization tasked with developing student potential, increasing a sense of responsibility, and forming leadership attitudes. Student Council is also a forum for students to participate in school progress.

- Managed Instagram & TikTok organization accounts, boosting engagement through creative and student-relevant content.
- Designed visual campaigns (national day posters, info posts) optimized for mobile-first viewing and social media sharing.
- Produced TikTok videos and Reels to promote events and student activities in an engaging short-form format.
- Collaborated with school teams to ensure content accuracy, publishing schedules, and message alignment.
- Supported student initiatives by designing visual documentation and ensuring communication between students and faculty.
